Pro-Twist Information- Screws

PrimeSource Building Products (screws) are classified as building materials. As Such, fasteners are part of a system. The applicable Pro-Twist standards are:

Materials and Resources

Waste Disposal Methods

Per our MSDS for screws, Section VII, excess screws are recyclable and disposable in accordance with local, state or environmental ordinances.

Local /Regional Materials

Unless specified as “American Made”, PrimeSource Screws are not produced locally or regionally.

Recycled Content

Pro-Twist Screws are made with **15%** recycled steel. Steel makes up **80%** of the total content of a Pro-Twist screw. Oil and phosphate makes up 20% of the total, 100% of the oil and phosphate is made of recycled products

The steel that makes up 80% of the total content of a Pro-Twist screw is **post-industrial**. Pro-Twist packaging cartons are made from 80% recycled paper and 20% new paper products. Plastic Buckets are re-useable and recyclable.
